PAIA Manual

**As required in terms of section 51 of
the Promotion of Access to Information Act No 2 of 2021
(the “Act”) as amended**

Preamble

The Act seeks to give natural and/or juristic persons the right of access to records held by either a private or public body, subject to certain limitations, to enable them to exercise or protect their rights.

Section 51 of the Act obliges private bodies to compile a manual which would assist a person to obtain access to information held by such a private body and stipulates the minimum requirements a manual must comply with. In terms of section 51(2) of the Promotion of Access to Information Act (“**PAIA**”), this manual will be updated as and when the need arises.

List of Acronyms and Abbreviations

“CEO”	Chief Executive Officer
“DIO”	Deputy Information Officer
“IO”	Information Officer
“Minister”	Minister of Correctional Services
“PAIA”	Promotion of Access to Information Act
“Regulator”	Information Regulator
“Republic”	Republic of South Africa

A requester or data subject must use the prescribed form, FORM 02 when requesting access to a record or personal information.

A requester is any person making a request for access to a record of Regulator and in this regard, PAIA distinguishes between two types of requests for access to information i.e., personal requester (data subject) and other requester

A data subject is a requester who, having provided adequate proof of identity is seeking access to a record containing personal information about the data subject.

Other requester is a third party seeking to request access to information pertaining to the data subject. This third party may or not be acting on behalf of the data subject.

Objectives of Manual

The objectives of the Manual are:

- To provide a list of all records held by MiX Telematics (“**Company**”).
- To check the categories of records held by a body which are available without a person having to submit a formal PAIA request.
- To know the recipients or categories of recipients to whom the personal information may be supplied
- Have sufficient understanding of how to make a request for access to a record of the body, by providing a description of the subjects on which the body holds record and categories of records held on each subject
- To know if MiX has planned to transfer or process personal information outside the Republic and the recipients or categories of recipients to whom the personal information may be supplied
- know if the body has planned to transfer or process personal information outside the Republic of South Africa and the recipients or categories of recipients to whom the personal information may be supplied; and
- know whether the body has appropriate security measures to ensure the confidentiality, integrity and availability of the personal information which is to be processed.

- To set out the requirements with regard to who may request information in terms of PAIA as well as the grounds on which a request may be denied;
- To define the manner and form in which a request for information must be submitted.

The reference, in this Manual, to any information in addition to that specifically required in terms of Section 51 of PAIA does not create any right or entitlement (contractual or otherwise) to receive such information, other than in terms of PAIA.

The Act provides that a person may only request information in terms of PAIA, if the information is required for the exercise or protection of a right. Information will therefore not be furnished unless a person clearly provides sufficient particulars to enable the Company to identify the right the requester is seeking to protect as well as an explanation of why the requested information is required for the purpose of protection of that right.
