

# Solutions for Manufacturing and Warehousing

Bringing safety and efficiency to the forefront of your manufacturing and warehousing operation

## Overview

Your manufacturing and distribution operation is the heart of your businesses' supply chain. Yet, you're constantly asked to do more with less.

Smartly utilizing and extending the life of your resources is just the beginning. Employee turnover and strain, mixed with the rapid pace and volumes in manufacturing and distribution centers, impacts efficiency and safety. Operating and working in proximity with material handling equipment (MHE) like forklifts puts employees at risk. So much that nearly one fatality every three days in the US involves forklifts.

With an intelligence platform fueled by real-time data businesses can be proactive rather than reactive, making informed decisions to overcome these challenges. However, businesses often rely on manual processes to gather and assess data. This leads to inconsistent performance and heightened costs from:

- Unplanned down time, and other events, which slow operations
- Blind, error prone, compliance, maintenance, and utilization reporting
- Damage to inventory, equipment, and racking from a lack of accountability
- Accidents, threatening your most valuable asset, the people.

# Solution at a Glance

Powered by unrivaled data insights, Powerfleet enables businesses to digitalize operations through advanced automation from machine learning, simulation, and artificial intelligence (AI). Our fleet intelligence platform ingests, processes, and enriches data from every asset, vehicle, and person. This is supported by a world-renowned services team with nearly 30 years' experience.

Powerfleet is purpose-built to meet the goals of your fleet today and tomorrow. This includes:

## Safety and Security

- Increase pedestrian safety with real-time driver alerts on proximity and identifying danger spots
- Automate safety check lists.
- Establish cause and potentially mitigate liability with forensic data
- Capture key metrics and leverage driver scorecards for positive coaching
- Monitor a wide range of maneuvers, such as speed, impact and more, in real-time
- Reduce false alerts and achieve higher reliability for event tracking

## Regulatory Management and Compliance

- Feel confident with regulatory management while intelligently streamlining.
- Compliance workflows.
- Prevent unqualified individuals from driving equipment via access control.
- Regulate speed and other driver activities in adherence with OSHA criteria.
- Limit violations and, in turn, the potential for litigation

## Visibility and Resource Management

- Get a clear view of the location and utilization of your assets.
- Eliminate time and resources wasted on incidents.
- Decrease damage to equipment racking and inventory, while avoiding asset misuse, by increased accountability

## Maintenance and Performance

- Reduce unplanned downtime and costs from under or overservicing based on real-world usage
- Track vehicle usage hours to forecast preventative maintenance
- Increase vehicle longevity with maintenance alerts, and real-time updates on potential health issues

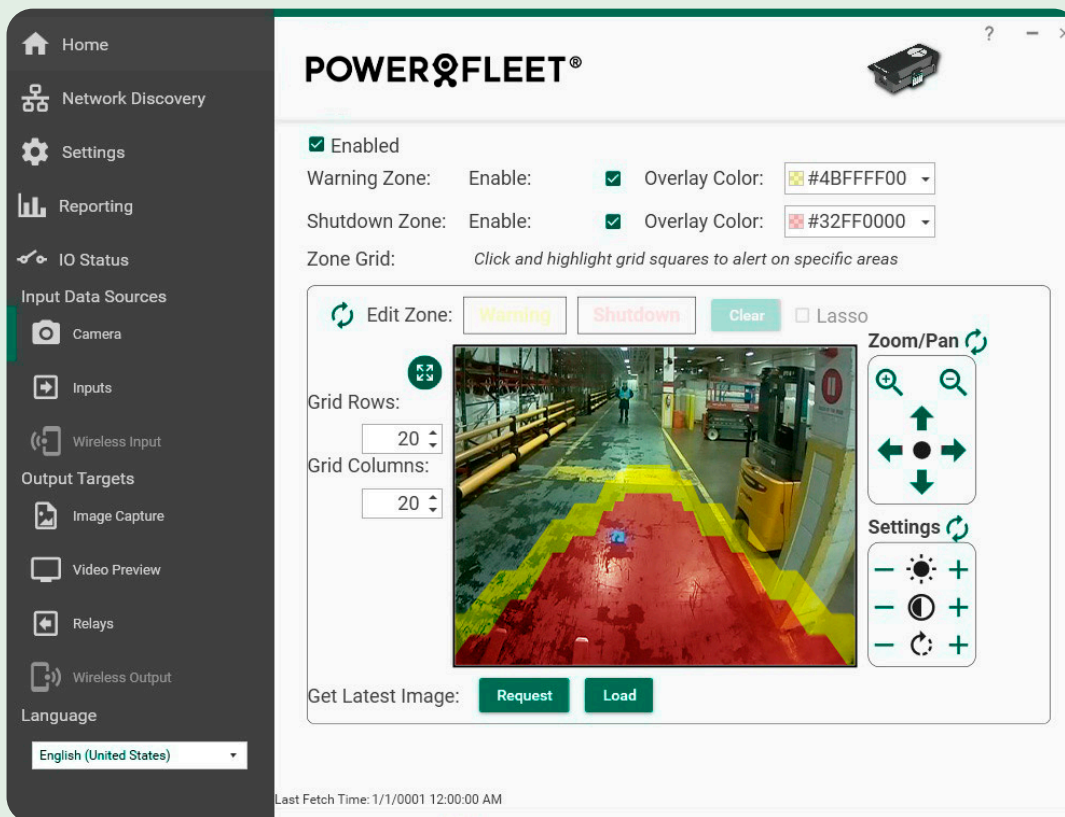

# Results

With Powerfleet you have access to real-time, multi-dimensional KPIs tailored to your business. You're empowered with the insight to optimize your fleet operations today, while being ready for what tomorrow holds.

Put your trust in Powerfleet to:

- Optimize utilization of your fleet
- Improve the safety environment
- Remain compliant
- Raise driver retention
- Shrink operating costs
- Avoid legal action
- Increase equipment longevity
- Protect your brand reputation

Powerfleet (NASDAQ: PWFL; TASE: PWFL) is a global leader of internet of things (IoT) software-as-a-service (SaaS) solutions that optimize the performance of mobile assets and resources to unify business operations. Our data science insights and advanced modular software solutions help drive digital transformation through our customers' and partners' ecosystems to help save lives, time, and money. We help connect companies, enabling customers and their customers to realize more effective strategies and results. Powerfleet's tenured and talented team is at the heart of our approach to partnership and tangible success. The company is headquartered in Woodcliff Lake, New Jersey, with our Pointer Innovation Center (PIC) in Israel and field offices around the globe.
